MASON GRANDUSKY, PHD

SENIOR SOFTWARE ENGINEER

PROFILE

With a strong and versatile programming background across various languages and layouts, I specialize in creating responsive websites and applications. I have delivered completive, high-performance solutions for a diverse range of companies, clients and brands. Most recently I played a key role in the development and security of websites and servers for **Registrar Corp**. From concept to release, I collaborated closely with a team of designers and brand managers to deliver exceptional results the exceeded expectations.

I bring a well-rounded technical skill set and expertise in transforming ideas into functional and impactful product offerings.

WORK EXPERIENCE

Registrar Corp - Senior Software Engineer
August 2022 – August 2025
Responsibilities & Achievements:
• Conducted thorough needs assessments to design, develop, maintain, and secure responsive websites for Registrar Corp's business training solutions. Responsible for creating and editing content, including both graphics and text, ensuring clarity, functionality, and a balanced visual layout.
• Managed cybersecurity protocols for servers and websites, acting as both server and security engineer. Set up and optimized web servers to efficiently host WordPress sites.
• Collaborated with internal departments and external vendors to ensure projects were completed on time and met expectations.

Key Contributions:
• Senior Engineer for E-Commerce Infrastructure: Supported the infrastructure and performance of the company's e-commerce platform, driving a 10x increase in traffic and a 5x increase in sales year-over-year.
• UI/UX to WordPress Themes: Translated UI/UX designs and mockups into fully functional, custom WordPress themes.
• Troubleshooting & Debugging: Resolved issues related to CSS, layout inconsistencies, graphics, and cross-browser compatibility, ensuring a seamless responsive design.
• Ongoing Maintenance: Provided regular support and maintenance for existing WordPress implementations and features as needed.

PARO – Web Consultant
September 2022 – Current

RootWurks – Contract
June 2022 – March 2023

Intertek Alchemy – Software Developer III
June 2019 – August 2022
